

SRP and DWP were the guests of Margaret Louise Winter at Apokeysink on June 17th and 18th, 1978. The information that follows about Apokeysink was written down by SRP on the evening of June 17, 1978:

--EPJ and EJW usually spent the month of August at Apokeysink; every summer from 1921-1951

--the Apokeysink monogram--which appears on the fireplace, the shutters, among other places in Apokeysink--is as follows:

--the cabin itself was bought in Buffalo; the boards were numbered and the cabin was taken apart and shipped to Pennsylvania and re-assembled; the dis-assembled cabin was shipped to Archie Thorn in Starlight--on several of the boards in the cabin the following stamp is to be seen: "Notify Archie Thorn Starlight, Pennsylvania Wayne County."

--the electricity was put in Apokeysink by Albert Winter

--the Eastern half of the roof of the cabin collapsed one Winter under the weight of the snow

--the fireplace was removed from the cabin because it was pushing the cabin down the hill and threatened to crush the cabin

--the blueprints that were used to construct the cabin are owned by Margaret Winter

--Margaret Winter: "Aunt Eleanor took the train to Starlight and hiked in and saw the land. She went down to the Bradley place and telegraphed Buffalo and that was it [i.e., EPJ and EJW decided to buy the land and build a cabin]."

--Margaret Winter: "Aunt Eleanor and Joey rented Pioneer Lodge while they built Apokeysink and then Pioneer Lodge was bought by Aunt Maggie and Uncle Sam. The Bradleys, I think it was Charles Bradley, used to own Pioneer Lodge."

--Margaret Winter: "Aunt Maggie and Uncle Sam bought Pioneer Lodge, at one point, and kept it until their death. I know that EPJ inherited the property. She sold it to the Fuhrmanns of Flemington, New Jersey. Mrs. Fuhrmann went to Blair Academy with Aunt Eleanor."
